

Western New York Remediation Section

Week ending November 18, 2014

New Cassel: No change in Status.

- **OU1 RD and OU3 RI/FS negotiations:** On November 12th, ERRD and ORC met with NCIA and the “upgradient” Hicksville parties to discuss their comments on the draft AOC and SOWs. EPA agreed to revise the AOC and OU1 RD SOW so that specific tasks related to the individual OU1 plumes are identified to aid in PRP’s internal negotiations and concerns related to joint and several liability. EPA expects to provide revision by early December. Internal target completion date of negotiations is 12/31 for the OU1 RD and OU3 RI/FS.
